RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

APRIL 1862 and 1863.

Ordered, by The House of Commons, *to be Printed*,
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,685 (including the Parishes in the new Unions) of that number; 201 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

The following is a Tabular Statement of the Number of Unions and Parishes;

* Many places, not heretofore liable to maintain their own poor, are becoming parishes, under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales, cannot at present be stated; since the publication of the Return for December 1858, 228 new parishes have been recorded here, inclusive of the five parishes of the Scilly Islands.

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

MAY 1862 and 1863.

Ordered, by The House of Commons, *to be Printed*,
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,685 (including the Parishes in the new Unions) of that number; 201 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

The following is a Tabular Statement of the Number of Unions and Parishes;

* Many places, not heretofore liable to maintain their own poor, are becoming parishes, under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales, cannot at present be stated; since the publication of the Return for December 1858, 228 new parishes have been recorded here, inclusive of the five parishes of the Scilly Islands.

QUARTERLY STATEMENT AS TO PAUPERISM,

Midsummer 1863.

(Paupers in Lunatic Asylums and Vagrants not included.)

The present Return completes the Monthly Series for the Quarter ended at Midsummer 1863. The four following Tables are given in continuation of those prefixed to the Monthly publication for March last.

The Tables are—

1st. England and Wales; the pauperism in the consecutive weeks of the quarter.

2d. ——————————; the comparative pauperism of the quarter.

3d. North Midland, North Western, and York Divisions; the comparative pauperism of the quarter.

4th. The Metropolis; the comparative pauperism of the quarter.

1.—In the 1st Table, each week, compared with its predecessor, shows a decrease in the number of Paupers: 1,061,508 were the numbers relieved in the last week of March (Lady-day); but in the 4th week of June (Midsummer) they had fallen to 969,187, which is a decrease of 92,321, or 8·70 per cent. less at Midsummer than Lady-day.

2.—The next Table exhibits the comparative Pauperism during the Midsummer quarter of 1861, 1862, and 1863.

The Paupers in receipt of relief on the last day of the last week of June were—

In 1861 - - - - - -	817,030

„ 1863 - - - - - -	968,299

The Paupers in 1863, as compared with those in 1862, have increased 77,971, or 8·76 per cent.; but compared with 1861 the increase is 151,269, or 18·51 per cent.

*** The Numbers given for 1862 and 1863 respectively, differ slightly from the Totals entered in the Returns for April, May, and June; this arises from the circumstance of Pontefract and Tadcaster being excluded from Table II., as those places were not in the Returns for 1861.

3.—The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of Paupers relieved on the last day of the last week of June, the numbers were—

In 1861 - - - - - -	189,186
„ 1862 - - - - - -	252,508
„ 1863 - - - - - -	317,559

The increase in 1863, compared with 1862, was 65,051, or 25·76 per cent.; but in comparison with 1861 there was an increase of 128,373, or 67·86 per cent.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,685 (including the Parishes in the new Unions) of that number; 201 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

The following is a Tabular Statement of the Number of Unions and Parishes;

* Many places, not heretofore liable to maintain their own poor, are becoming parishes, under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales, cannot at present be stated; since the publication of the Return for December 1858, 228 new parishes have been recorded here, inclusive of the five parishes of the Scilly Islands.

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

JULY 1862 and 1863.

Ordered, by The House of Commons, *to be Printed,*
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

AUGUST 1862 and 1863.

Ordered, by The House of Commons, *to be Printed,*
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

The Paupers in receipt of relief on the last day of the last week of September were—

In 1861 - - - - - -	808,189

*** The Numbers given for 1862 and 1863 respectively, differ slightly from the Totals entered in the Returns for July, August, and September; this arises from the circumstance of Pontefract and Tadcaster being excluded from Table II., as those places were not in the Returns for 1861.

3.—The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of Paupers relieved on the last day of the last week of September, the numbers were—

In 1861 - - - - - -	188,176
„ 1862 - - - - - -	315,223
„ 1863 - - - - - -	291,083

The decrease in 1863, compared with 1862, was 24,140, or 7·66 per cent.; but in comparison with 1861 there was an increase of 102,907, or 54·69 per cent.

4.—According to the last returns for the month of September in the three years last past, the number of Paupers in the Metropolis was—

In 1861 - - - - - -	85,220

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

OCTOBER 1862 and 1863.

Ordered, by The House of Commons, *to be Printed,*
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1862), the number contained in the two classes was 2·3 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

NOVEMBER 1862 and 1863.

Ordered, by The House of Commons, *to be Printed*,
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1863), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

QUARTERLY STATEMENT AS TO PAUPERISM,

Christmas 1863.

(Paupers in Lunatic Asylums and Vagrants not included.)

The Return now published completes this portion of the Series for the year 1863. The four following Tables are given in continuation of those prefixed to the Monthly publication for September last.

The Tables are—

1st. England and Wales; the pauperism in the consecutive weeks of the quarter.

2d. ——————————; the comparative pauperism of the quarter.

3d. North Midland, North Western, and York Divisions; the comparative pauperism of the quarter.

4th. The Metropolis; the comparative pauperism of the quarter.

1.—In the 1st Table, each week is compared with the one immediately preceding it. The last week of the year is higher than the last week of the Michaelmas quarter by 28,681 Paupers.

The Paupers in receipt of relief on the last day of the last week of December were—

In 1861 - - - - - -	893,730
„ 1862 - - - - - -	1,104,291

The Paupers in 1863, as compared with those in 1862, have decreased 145,971, or 13·21 per cent.; but compared with 1861, the increase is 64,590, or 7·23 per cent.

*** The Numbers given for 1862 and 1863 respectively, differ slightly from the Totals entered in the Returns for October, November, and December. this arises from the circumstance of Pontefract and Tadcaster being excluded from Table II., as those places were not in the Returns for 1861.

3.—The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of Paupers relieved on the last day of the last week of December, the numbers were—

„ 1862 - - - - - -	422,119
„ 1863 - - - - - -	288,159

The decrease in 1863, compared with 1862, was 133,960, or 31·74 per cent.; but in comparison with 1861 there was an increase of 69,568, or 31·83 per cent.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1863), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

JANUARY 1863 and 1864.

Ordered, by The House of Commons, *to be Printed,*
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1863), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

FEBRUARY 1863 and 1864.

Ordered, by The House of Commons, *to be Printed*,
10 *July* 1863.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1863), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

QUARTERLY STATEMENT AS TO PAUPERISM,

LADY-DAY 1864.

(Paupers in Lunatic Asylums and Vagrants not included.)

THE Return now published completes this portion of the Series for the Parochial year 1863–64. The four following Tables are given in continuation of those prefixed to the Monthly publication for December last.

The Tables are—

1st. ENGLAND and WALES; the pauperism in the consecutive weeks of the quarter.

2d. ———————— ; the comparative pauperism of the quarter.

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

1.—In the 1st Table, each week is compared with the one immediately preceding it. The last week of the Parochial year is less than the last week of the Christmas quarter by 21,059 Paupers.

The Paupers in 1864, as compared with those in 1863, have decreased 81,177, or 7·65 per cent.; but compared with 1862 there was an increase of 21,688, or 2·26 per cent.

*** The Numbers given for 1863 and 1864 respectively, differ slightly from the Totals entered in the Returns for January, February, and March; this arises from the circumstance of Pontefract, Tadcaster, Holbeck, and Hunslet being excluded from Table II., as those places were not in the Returns for 1862.

3.—The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of Paupers relieved on the last day of the last week of March; the numbers were—

In 1862 - - - - - -	261,643
„ 1863 - - - - - -	376,406
„ 1864 - - - - - -	287,448

The decrease in 1864, compared with 1863, was 88,958, or 23·63 per cent.; but in comparison with 1862 there was an increase of 25,805, or 9·86 per cent.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1863), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,681 of that number; 205 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

No. 1.—REMARKS on the Industrial Statistics of 1861; and, on the Pauperism of the 1st July 1863.

The Industrial Statistics of 1861.

Industrial Statistics.

The publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders*," are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders*," marked by a larger numeral (2); and, that, the Orders are collected into "*Classes*," marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government; and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

Order 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

" 5. *Persons engaged in entertaining, and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

ORDER 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

" 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called Growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain Fruits, Grasses, Animals, and other Products.*

" 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11). Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal, and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

" 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

" 12. *Persons working and dealing in Food and Drinks.*

" 13. *Persons working and dealing in Animal Substances.*

" 14. *Persons working and dealing in Vegetable Substances.*

" 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.) Many of the persons in Orders 16 and 17 properly belong to the other classes.'

ORDER 16. *Labourers and others—Branch of Labour undefined.*

" 17. *Persons of Rank or Property not returned under any Office or Occupation.*

" 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

The

The absolute, as well as the proportional numbers of the adult population under the six industrial classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

The Returns of Pauperism, 1st July 1863.

The present Publication contains the Tabulated Returns of 655 Unions and Single Parishes under Boards of Guardians; but in respect of two places, namely, the Incorporation of Shrewsbury and that of Montgomery and Pool, the Returns are limited to the number of *In-door* Paupers relieved.

Pauperism 1st July.

The aggregate population of the 655 places by the Census of 1861, is 19,885,921; and the total number of Paupers on the 1st July 1863, is—

In-door.	Out-door.	Total.
125,368	874,606	999,974

This gives the proportion of Paupers as 1 in 20; or 5·0 per cent. on the actual population.

Comparison of 1st July 1863 and 1862.

Comparing the numbers returned on the 1st July 1863 with those at the same date in 1862, the figures stand thus:—

Date.	Number of Unions, &c.	In-door Paupers.	Out-door Paupers.	Total.
1st July 1862	652	123,432	802,826	926,258

No. 1.—REMARKS on the INDUSTRIAL STATISTICS of 1861; and, on the PAUPERISM of the 1st JANUARY 1864.

THE INDUSTRIAL STATISTICS OF 1861.

Industrial Statistics.

THE publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders*," are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders*," marked by a larger numeral (2); and, that, the Orders are collected into "*Classes*," marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

ORDER 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

* *See* Dr. Farr's account of the "New Classification of the People according to their Employment."—Census of England and Wales, 1861, Vol. III., pp. 225 *et seq.*

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

Order 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

,, 5. *Persons engaged in entertaining, and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

Order 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

,, 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called Growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

Order 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

,, 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.) Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal, and ending with steel."

Order 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

,, 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

,, 12. *Persons working and dealing in Food and Drinks.*

,, 13. *Persons working and dealing in Animal Substances.*

,, 14. *Persons working and dealing in Vegetable Substances.*

,, 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.) Many of the persons in Orders 16 and 17 properly belong to the other classes."

Order 16. *Labourers and others—Branch of Labour undefined.*

,, 17. *Persons of Rank or Property not returned under any Office or Occupation.*

,, 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table:—

Persons *working and dealing in* MINERALS.
	ORDER XVI. Nearly identical with	CLASS XV. Labourers and others—*Branch of Labour undefined.*
	ORDER XVII. Nearly identical with	CLASS XVI. Persons of RANK *or* PROPERTY *not returned under any Office or Occupation.*
	ORDER XVIII. Nearly identical with	CLASS XVII. Persons *supported by the community, and of* NO SPECIFIED OCCUPATION.

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

The

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales. Ratio of Occupations.

The Returns of Pauperism, 1st January 1864.

The present Publication contains the Tabulated Returns of 655 Unions and Single Parishes under Boards of Guardians; but in respect of two places, namely, the Incorporation of Shrewsbury and that of Montgomery and Pool, the Returns are limited to the number of *In-door* Paupers relieved.

Pauperism 1st January.

The aggregate population of the 655 places by the Census of 1861, is 19,885,921; and the total number of Paupers on the 1st January 1864, is—

In-door.	Out-door.	Total.
139,750	872,003	1,011,753

This gives the proportion of Paupers as 1 in 20; or 5·1 per cent. on the actual population.

No. 1.—REMARKS ON THE RETURNS OF IN AND OUT-DOOR RELIEF.

Half Year ended Michaelmas, 1863.

Number of Unions returned.

The Returns of In-maintenance and Out-door Relief, printed at pp. 16–59, have been received from 655 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

The amount expended in the 655 Unions and Parishes during the half-year was, for—

In-Maintenance.	Out-door Relief.	TOTAL.
£.	£.	£.
520,474	1,742,311	2,262,785

The population of the places referred to was 19,885,921, according to the Census of 1861; the entire population of England and Wales being 20,066,224.

Irremovable Paupers.

The sum expended for Irremovable Paupers, can be shown for 611 Unions and single Parishes only; as the other places keep no separate account of their disbursements in respect of this class of poor.

The 611 Unions and Parishes contain about 17/20ths of the entire population of the Kingdom; the sum expended in them for relief during the half-year was, in respect of—

Total - - - £.	387,259	1,605,961	1,993,220

The cost of relief to the Irremovable Paupers was 36·0 per cent. on the cost of relief to the other Paupers during the half-year; but during the half-year ended at Michaelmas 1862, the ratio was 31·4 per cent., so that the proportion has risen by 4·6 per cent., comparing the former period with the latter.

The

The following Table is a comparative statement of the expenditure for the half-years ended at Michaelmas 1862 and 1863, in 655 unions and single parishes: Expenditure, Michaelmas, half-years 1862 and 1863.

State of Employment.

The extent of employment among the labouring population during the periods under consideration, is, to a certain extent, indicated by the official Tables of the declared value of the Imports and Exports of the United Kingdom.

Comparing the expenditure for In-maintenance and Out-door Relief of the Michaelmas half-year, 1863, with that of 1862, it will be found there was an *increase* of 68,897 *l.*, or 3·1 per cent.; and it will be seen, by the next Table, that there was an increase of expense in five of the Divisions.

Poor Law Board,
5 December 1864.

FREDERICK PURDY,
Principal of the Statistical Department.

No. 2.—REMARKS on the Industrial Statistics of 1861.

The Industrial Statistics of 1861.

Industrial Statistics.

The publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders*," are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders*," marked by a larger numeral (2); and, that, the Orders are collected into "*Classes*," marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

Order 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

* *See* Dr. Farr's account of the "New Classification of the People according to their Employment."—Census of England and Wales, 1861, Vol. III., pp. 225 *et seq.*

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

Order 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

" 5. *Persons engaged in entertaining, and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

Order 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

" 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called Growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

Order 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

" 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.) Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal, and ending with steel."

Order 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

" 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

" 12. *Persons working and dealing in Food and Drinks.*

" 13. *Persons working and dealing in Animal Substances.*

" 14. *Persons working and dealing in Vegetable Substances.*

" 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.) Many of the persons in Orders 16 and 17 properly belong to the other classes."

Order 16. *Labourers and others—Branch of Labour undefined.*

" 17. *Persons of Rank or Property not returned under any Office or Occupation.*

" 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

No. 1.—REMARKS ON THE RETURNS OF IN AND OUT-DOOR RELIEF.

Half Year ended Lady-day, 1864.

Number of Unions returned.

The Returns of In-maintenance and Out-door Relief, printed at pp. 16–59, have been received from 654 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

The amount expended in the 654 Unions and Parishes during the half-year was, for—

In-Maintenance.	Out-door Relief.	TOTAL.
£.	£.	£.
559,712	1,691,259	2,250,971

The population of the places referred to was 19,874,530, according to the Census of 1861; the entire population of England and Wales being 20,066,224.

Irremovable Paupers.

The sum expended for Irremovable Paupers, can be shown for 610 Unions and single Parishes only; as the other places keep no separate account of their disbursements in respect of this class of poor.

The 610 Unions and Parishes contain about 17/20ths of the entire population of the Kingdom; the sum expended in them for relief during the half-year was, in respect of—

The cost of relief to the Irremovable Paupers was 36·1 per cent. on the cost of relief to both classes during the half-year; but during the half-year ended at Lady-day 1863, the ratio was 37·7 per cent., so that the proportion has fallen 1·4 per cent., comparing the former period with the latter.

Poor Law Board,
5 December 1864.

FREDERICK PURDY,
Principal of the Statistical Department.

No. 2.—REMARKS on the INDUSTRIAL STATISTICS of 1861.

THE INDUSTRIAL STATISTICS OF 1861.

Industrial Statistics.

THE publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders*," are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders*," marked by a larger numeral (2); and, that, the Orders are collected into "*Classes*," marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

ORDER 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

Order 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

" 5. *Persons engaged in entertaining, and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

Order 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

" 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called Growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

Order 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

" 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.) Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal, and ending with steel."

Order 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

" 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

" 12. *Persons working and dealing in Food and Drinks.*

" 13. *Persons working and dealing in Animal Substances.*

" 14. *Persons working and dealing in Vegetable Substances.*

" 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.) Many of the persons in Orders 16 and 17 properly belong to the other classes."

Order 16. *Labourers and others—Branch of Labour undefined.*

" 17. *Persons of Rank or Property not returned under any Office or Occupation.*

" 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

	ORDER XVIII. Nearly identical with	CLASS XVII. Persons *supported by the community, and of* NO SPECIFIED OCCUPATION.

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

No. 1.—REMARKS ON THE ANNUAL POOR RATE RETURN, YEAR ENDED LADY-DAY 1863.

Series of Returns.

THE present Return is the *fifty-sixth* annual publication of the Poor Rate Returns.

Extent of the Return.

This Return is, in respect of the number of places which it represents, the most complete of the Statistics of Pauperism; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited; excepting only some small Parishes, which are stated by the overseers either to have "No poor," or to make no levy "yet."

Valuations to the Poor Rates.

The Net Annual Value of Property assessed to the Poor's Rate has been returned in respect of four parochial years. "The Gross Estimated Rental" is also returned for the last of these years.

The Returns, in a contracted shape, are exhibited in the next Table, for the last three years, with the Rate per head, on the estimated population, of the amount levied as Poor's Rate, and of the amount expended in Relief:—

Four-fifths

* The details of these Valuations will be found in the following Papers, printed by order of the House of Commons; viz., No. 235, "Real Property," 1842; No. 735, "Poor Rates, &c." 1848; No. 539, "Poor Rate Assessment," 1852; No. 63, "Population, &c. of Parishes," 1858; and No. 251, "Population, Inhabited Houses, &c.," 1859. The "Gross Estimated Rental," and the "Rateable Value" for each Parish is given with respect to the Parochial year 1856 in No. 491, "Poor Rates, &c.," Session 1861.

Large proportion of Expenditure for purposes unconnected with Relief.

Four-fifths of the expenditure, described in the last Table as for "All other Purposes," consists of payments which have no connexion whatever with relief to the poor. This part of the Poor-Rate Expenditure, which is foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The next Table exhibits, separately, all the charges referred to, so far as the returns permit. The heaviest item is the disbursement in respect of the "County, Hundred, or Borough Rate, or Police Rate."

Considerably

Considerably more than *one-fourth* of the whole Poor Rates now levied, are expended for purposes unconnected with Relief to the Poor. Besides the charges here shown, there are some others paid out of the Rate, but which are not discriminated, such as the expenses incurred for sanitary purposes, and the cost of providing new Burial Grounds.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the three years.

Medical Relief.

The column in the Return, which succeeds that of "Total Expenditure," contains the expense of *Medical Relief* only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column 4, § A, of the Return; because, the various items of Medical Relief are included in sub-columns (*e*) or (*f*), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the last three years were as follows:

For 1860–61 - - - - - -	£. 238,233
1861–62 - - - - - - -	242,200
1862–63 - - - - - - -	248,286

School Districts.

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the Treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then, like the Medical Relief, does not represent any additional expenditure, having been heretofore properly included in the amounts printed opposite to the respective Unions concerned, at pages 24, *et seq.*

The sums contributed by each Union to the School District; and, the sums expended by each district and for each Union during the parochial year 1862-63, are contained in the subjoined Table:—

Poor Law Board,
14 June 1864.

FREDERICK PURDY,
Principal of the
Statistical Department.

MEMORANDUM AS TO THE ARRANGEMENT OF THE RETURNS OF "POOR RATES AND PAUPERISM."

Statistics of Pauperism.

The Statistics of Pauperism now presented to the House of Commons, have, under the directions of the President of the Poor Law Board, been classed, in respect of localities, on the plan adopted for the Census of 1851; and augmented, in respect of subject-matter, by the publication of the Returns of each Union, separately; with the addition of some Industrial Statistics.

Divisions.

It will be seen on reference to the Tables, that the Union-Counties have been arranged in Eleven Divisions, namely—

Division I.—The Metropolis.
II.—South Eastern Counties.
III.—South Midland Counties.
IV.—Eastern Counties.
V.—South Western Counties.
VI.—West Midland Counties.
VII.—North Midland Counties.
VIII.—North Western Counties.
IX.—Yorkshire.
X.—Northern Counties.
XI.—Monmouthshire and Wales.

And, that the Unions have been placed, according to their topographical proximity, under the Union-Counties.

Union-Counties.

The "*Union*-Counties" are formed by placing together certain Unions, &c., which, in aggregate area and population, most nearly coincide with the Counties proper, that respectively bear the same names. Owing to the fact that the Union boundaries are not conterminous with the boundaries of Counties, it is impossible to make the Union-Counties coincide absolutely in area and population with the ordinary County divisions; but, the Union-Counties are now made, as far as possible, co-extensive* with the Registration Counties of the Census; and the Unions themselves, correspond to the Registration Districts of the same work. This correspondence of area extends to the Returns published by the Registrar-General.

The

* There are now (July 1857) 408 parishes, with a total population of 1,324,833, which make no Return to the Poor Law Board. When Returns can be obtained and published for these places, the coincidence of areas will be complete.

Classes of Occupations.

The Industrial Statistics have been compiled from the information published in the Occupations Abstract of the Census of 1851; which exhibits the various employments of the people under the following Classes; namely—

Class I.	Persons engaged in the general or local GOVERNMENT *of the Country*	65,330
II.	Persons engaged in the DEFENCE *of the Country*	78,498
III.	Persons in the LEARNED PROFESSIONS (with their immediate SUBORDINATES), *either filling Public Offices*, or *in private Practice*	87,422

VII.	Persons who BUY *or* SELL, KEEP, LET, *or* LEND, *Money, Houses, or Goods of* VARIOUS KINDS	162,265
VIII.	Persons engaged in the CONVEYANCE *of Men, Animals, Goods, and Messages*	252,196
IX.	Persons *possessing or working the* LAND, *and engaged in growing* GRAIN, FRUITS, GRASSES, ANIMALS, *and other Products*	1,576,081

XII.	Persons *working and dealing in* ANIMAL MATTERS	419,282
XIII.	Persons *working and dealing in Matters derived from the* VEGETABLE KINGDOM	789,314

XVI.	Persons of RANK *or* PROPERTY *not returned under any Office or Occupation*	147,879
XVII.	Persons *supported by the community, and of* NO SPECIFIED OCCUPATION*	103,453
	Other *Persons of no stated Occupations or Conditions*	110,407
	TOTAL of Persons, aged 20 and upwards, in England and Wales	9,816,597

Sub-classes.

These Classes are divided into *eighty-seven* Sub-classes. The minor details are given, with great fulness, under Class and Sub-class at page cxxviii *et seq.* in the 1st volume of the Second Part of the Census.

Computation of Ratios.

The ratios of occupations were computed in this office, to accompany the series to be presented from time to time, under the general title of "Poor Rates and Pauperism." They were, of necessity, restricted to the adult population; because, the occupations of persons under 20 years of age, have not been published for separate Unions.

However,

* Classes V. and XVII. include only those of the persons described who are not returned in any of the other classes.

Classes excluded.

However, more than half the population, that is, 9,816,597 persons, are persons aged "20 years and upwards." But this number is reduced about one-third, by the rejection of Classes I., II., III., IV., V., XV., XVI., and XVII., as seven of these were considered to have very little, if any, bearing on questions of pauperism; and, Class XV., embracing undefined branches of labour, was thrown out by the impossibility of a satisfactory allocation of the numbers therein; a like cause excluded 110,407 "persons of no stated occupations or conditions."

Groups.

The Classes retained have been thrown into four Groups, thus:—

TITLES OF THE GROUPS.	Corresponding Classes in the Census Abstract.	Number of Persons aged 20 Years and upwards in each Group.
(*a*) Mechanical Arts; Trade and Domestic Service.	Classes VI.; VII.; VIII.; X.; XI.; XII. (Sub-Class 1 only); XIII. (Sub-Classes 1 and 2 only).	3,042,520
(*b*) Agriculture - - - -	Class IX. - - - - - -	1,576,081
(*c*) Manufactures - - -	Classes XII. (*except* Sub-Class 1); and XIII. (*except* Sub-Classes 1 and 2).	819,802
(*d*) Mining and Mineral Works -	Class XIV. - - - - - -	623,171

Ratios of the Groups.

These four Groups contain 6,061,574 persons; or 61·8 per cent. of the total adult population. Separately considered, the ratios stand thus—

Group (*a*).—Mechanical Arts, Trade and Domestic Service - - } contains 31·0 per cent.

Group (*b*).—Agriculture - - - contains 16·1 per cent.

Group (*c*).—Manufactures - - - contains 8·4 per cent.

Group (*d*).—Mining and Mineral Works - contains 6·3 per cent.

Titles of the Groups.

The Titles briefly express the preponderating characteristics of the Groups; the headings of the tabular columns, necessarily concise, excluding any reference to minor branches of employment. But the following Synopsis, exhibiting the Sub-classes collected into the different Groups, will, it is believed, afford a sufficient account of the numbers and industries discussed in each.

Average Ratios.

With the view of giving greater clearness to the industrial statistics, the ratios have, when *above* the average of their respective Groups, been printed in *italics*; but, when at the average, or below it, ordinary figures have been employed.

Special Occupations.

The Groups (*a*), (*c*), and (*d*), containing a great variety of employments, a column for special occupations has been printed, opposite to each Union. In this Column particular branches of industry are named, with references to the Groups; whenever the number of persons employed appeared sufficiently important to require notice. The agricultural Group (*b*) not being characterised by varieties, to the same extent, required no elucidation beyond the computed ratios. For the sake of brevity, the names of the products, whether wrought or unwrought, are given in this column instead of the names of the occupations, *e. g.*, "copper" for copper-mining; "silk" for silk manufactures.

Union Returns.

To save space in printing the Pauper Statistics of each Union, the ordinary returns, given *in extenso* in Table No. 1, have been reduced under four heads; namely, 1. *Able-bodied*; 2. *Not Able-bodied*; 3. *Insane*; 4. *Vagrants*; at the same time, the distinction of In-door from Out-door Paupers has been preserved.

Reference numbers.

The reference numbers to the Union-Counties and Unions are the same as those printed in the Census; and, employed in the Registrar-general's Returns, place for place; except, in those instances where the registration districts include two, or more, poor-law unions or parishes. In such cases the Census number has been retained, and the separation into parts marked by a letter added to the original number; thus, Kensington, which in the Census stands as number 1, is divided into three places for poor-law purposes, and the several parts are marked accordingly; 1 *a.*—Kensington. 1 *b.*—Fulham. 1 *c.*—Paddington.

No. 1.—REMARKS ON THE RETURN OF INSANE PAUPERS,

Chargeable on the 1st January 1864.

Source of Information.

1. The Statistics of Pauper Insanity contained in this Paper have been compiled from the lists of "Lunatics, Idiots, and other Persons of Unsound Mind," who were chargeable to the Poor Rates on the 1st January 1864. These lists are made out annually by the Clerks to the Guardians, and transmitted to the Poor Law Board, in compliance with the 16 & 17 Vict. c. 97, s. 64, and in the form prescribed by Schedule D. of that Statute.

Places returned.

2. Returns have been received from 661* Unions and Single Parishes under Boards of Guardians. The Population of these places, according to the Census of 1861, is 19,949,755. The number of Insane Paupers chargeable to the Poor Rates in those places on that day is shown below :—

Number of Paupers on 1st January 1864.	Whereof were Insane Paupers.	Namely :—	
		Lunatics.	Idiots.
1,011,753†	37,576	27,590	9,986

Thus 3·7 per cent. of the Pauperism, on the 1st January last, is ascribable to Insanity; the Lunatics being 2·7 per cent., and the Idiots 1·0 per cent.

Proportion of the Sexes.

3. In regard to the sexes, 16,471 were Males, and 21,105 Females :—

Insane.	Males.	Females.	Total.
Lunatics - - -	11,891	15,699	27,590
Idiots - - -	4,580	5,406	9,986
Total - - -	16,471	21,105	37,576

* Inclusive of *Eight* Gilbert's Incorporations.

† Exclusive of the paupers in Seven of the Gilbert's Incorporations, from which the Poor Law Board do not receive this information. The number of *Insane* paupers, however, in these places was, on 1st January last, 82; of whom 54 were returned as "Lunatics," and 28 as "Idiots."

4. In
